## Measuring Length

Remember? This ruler measures in inches. The three lines between each two numbers on the ruler divide each inch into four parts, which are fourth parts of an inch.

The $2 / 4$ mark is also the $1 / 2$ mark. We normally use $1 / 2$ instead of $2 / 4$.

This ruler measures in centimeters. The numbers signify whole centimeters. All the little lines between those are for millimeters.

There are 10 millimeters in each centimeter.
$10 \mathrm{~mm}=1 \mathrm{~cm}$

The distance between
these two is 1 mm .
 $\begin{array}{lllllllll}1 & 2 & 3 & 4 & 5 & 6 & 7 & 8 & 9\end{array}$

1. Measure the lines to the nearest fourth of an inch.

Also measure them using a centimeter-ruler.
a. $\qquad$ in. or $\qquad$ cm $\qquad$ mm
b. $\qquad$ in. or $\qquad$ cm $\qquad$ mm $\square$
b. in. or ـ c. $\qquad$ in. or $\qquad$ cm $\qquad$ mm
d. $\qquad$ in. or $\qquad$ cm $\qquad$ mm
e. $\qquad$ in. or $\qquad$ cm $\qquad$ mm
