

A Little Bit of Millions

If you count by whole thousands... (read aloud)	994,000	...what comes after 999 thousand?	1,000,000
	995,000		A thousand thousands! It is called ONE MILLION.
	996,000		
	997,000		
	998,000		
	999,000		

The little comma separates the millions places (digits) from the rest.

5,000,000

Read: 5 million

69,000,000

Read: 69 million

967,000,000

Read: 967 million

Every number listed above has 6 zeros - they are *whole millions!*

After the millions, the rest of the number is read just like you have learned before.

347,500,000

347 million 500 thousand

19,020,000

19 million 20 thousand

347,040,326

347 million 40 thousand 326

Simply read the word "million" at the first comma, and "thousand" at the second comma.

1. Place two commas into the number: one to separate the thousands' places, and another to separate the millions.

a. 724000000 ___ million	b. 512000000 ___ million	c. 404000000 ___ million
d. 4000000 ___ million	e. 86000000 ___ million	c. 8345000 ___ million ___ thousand
g. 22906000 ___ million ___ thousand	h. 514310000 ___ million ___ thousand	i. 40300000 ___ million ___ thousand

2. Write the numbers.

a. 18 million
